

SCREW CAM CLAMP (SCC)

TWO-YEAR WARRANTY

TECHNICAL SHEET

Universal clamp for lifting of a large variety of different shaped steel, ranging from steel plates and structured steel to curved and spherical shaped steels.

- This omni directionnal clamp can lift, hang, turn over, and pull steel structures.
- Equipped with a screw cam (spherical universal designed), which provides an extra powerful clamping force on the work piece at no load and even when vibrations occur during operation.
- The clamping force increases in proportion to the weight of the load.
- The main body is made from the die-forging of special alloy steels in one piece, which is optimally tempered for maximum strength and durability.
- High-frequency quenching of special alloy steels gives greater durability to the cam.
- The main body is a baked-on finished.
- The cam and the pad can be easily replaced.
